Contracting Office Address

Department of the Army, U.S. Army Corps of Engineers, U.S. Army Corps of Engineers, Afghanistan, Afghanistan Engineer District Kabul AFB, APO, AE, 09356, UNITED STATES

Description

The U.S. Army Corps of Engineers (USACE), Afghanistan Engineering (AED), intends to issue one Single Award Task Order Contract (SATOC) to procure all labor, equipment, management and supplies (less Government Furnished Property), to perform Reconstruction Security Support Services (RSSS) for AED throughout the Afghanistan area of operations. The SATOC will have one base period of 12 months and two 12 month option periods. Capacity of the SATOC will be \$33.4 million for the base period and \$33.3 million for each of the option periods. This procurement is a classified acquisition, meaning the resulting contract will be classified. The scope of the SATOC shall include providing USACE with the following services:

- 1) National Operations Center- The National Operations Center (NOC) will provide a focal point for AED operations countrywide. It will coordinate AED efforts by being the central collection and dissemination center of intelligence information, able to track all AED personnel movements in Afghanistan via map-based satellite tracking equipment and able to produce daily unclassified intelligence products relevant to the countrywide construction mission.
- 2) Security Liaison Team (SLT)- Contractor will provide specially trained employees to protect personnel and provide quality assurance oversight for AED construction projects. Responsibilities include actions to counter, deter, detect, and respond to threats to designated personnel using their training (skills) and tools such as: threat analysis, personnel security operations, operations security (OPSEC), responsive communications, and integrated team support. Responsibilities further include creation and timely distribution of products

detailing construction progress, construction quality, and community atmospherics as they relate to the construction mission.

3) Fixed Site/Static Security- Contractor to supply a guard force capable of providing professional, static/physical security guard services for Government personnel, contractor personnel, civilian personnel and Government property.

4) Vetting Program Services- The Contractor will utilize the standards IAW ISAF/CJTF-82 Entry Control Badging Policies, to properly vet all Local Nationals as well as conduct prescreening interviews of its own potential employees to determine if any condition is present to preclude them from being hired.

5) Vehicles- Contractor shall provide secure transportation services via armored vehicles for, and armored cars for the use of, the Afghanistan Engineer District (AED).

6) Aircraft- Contractor will have fixed wing and rotary wing assets available for dedication to AED upon 24 hours notice.

* The RFP will be released on or about 15 February 2008.

* There will be a pre-solicitation meeting at the USACE-AED Qalaa House compound in Kabul, Afghanistan on 25 February 2008 at 9 AM. POC for the meeting is Mr Ted Kerr at e-mail address Theodore.E.Kerr2@usace.army.mil.
